

Super Dungeon Teams: An SDExplore/SDArcade Mod v0.01

For those familiar with Super Dungeon Explore and Arcade, this is a slight modification that will reward for pairing thematic Heroes together in a party.

Types of Teams

Teams are typically formed by likely connections in the world of Crystalia, Kagejima, or elsewhere. In a pinch, there make even be a connection based on background.

Teams are listed in this document, but given a lack of thematic connection, heroes can form a party based on race for a smaller bonus.

Types of Bonuses

Key Team Bonus:	A listed advantage based on the Hero commonality.
Release Team Bonus:	A selction from a common list of choices: An extra Princess Token +1ST STR bonus token +1ST ARM bonus token +1ST WILL bonus token +1ST DEX bonus token
Racial Team Bonus:	Hero party takes an extra Princess Token.

Bonus Requirements

At least 2 Heroes must have a Team in common in order to activate a team bonus.

Team Combinations

Multiple Team Bonuses can be activated as long as there is a common link between the different Team Bonuses.

e.g. A 4 Hero Team has 2 Orcs, and 2 Dark Heroes: 1 Orc and 1 Dark Hero both have a common keyword available to a Key Team Bonus. This allows for 3 Team Bonuses.

Under this model, a team of 2 Orcs and 2 Dark Heroes with no Key commonality would have 0 Team Bonuses.

Alternate:

Multi-Bonus

As long as any 2 or more members of the party can qualify for a Team Bonus, the party may benefit from that Team Bonus.

e.g. A 6 Hero Team with 2 Orcs, 2 Elves, and 2 Fennek, would benefit from 3 Racial Team Bonuses.

Key Teams

Holy Heroes

There are those Heroes that fight the undead and destroy them together.

Bonus: A Holy Hero team may re-roll a 2nd die, including the first, rolled against undead.
